Accredited Course: Anticoagulation Management in Primary Care

2011 Dates: 21st-23rd March, 12th-14th September and 28th-30th November
Centre for Professional Development, Medical School, University of Birmingham

Course overview
This course consists of pre course learning, 3 days of lectures, seminars, facilitated group discussions and practical workshops. To achieve full accreditation it is necessary to successfully undertake both written and practical assessments plus a summative assessment in the six months following course attendance. The summative assessments are conducted within anticoagulation management clinics.

Aim
The course aims to enable autonomous practice in dealing with fundamental and more complex problems of oral anticoagulation management.

Learning outcomes
- An understanding of the theory underpinning anticoagulation management
- An understanding of the pharmacology of vitamin K antagonists and the relevant medication, side effects, antidotes, interactions and dosing
- A knowledge of the management of anticoagulation and prevention of complications on the basis of current guidelines and existing research evidence
- An understanding of the roles of the multi professional disciplinary team in managing anticoagulation safely
- An understanding of the requirements of clinical governance for anticoagulation management developing / adapting and applying audit tools with performance indicators

Programme to include:
How warfarin works and the INR; Anticoagulation guidelines; anticoagulant near patient testing; quality control; CDSS / NPT workshops; case scenarios; litigation issues; stroke prevention and atrial fibrillation; patient self management; funding; estimating costs of running an anticoagulation clinic; protocol development and accountability; warfarin drug interaction; management of VTE; a typical primary care clinic, audit parameters and primary care management.

Faculty includes:
Prof David Fitzmaurice, Dr Will Lester, Dr Ellen Murray and external specialists in the field e.g. UK NEQAS, PASA and NPSA.
